St. Petersburg will have free delivery service on the first of May. Good news for St. Petersburg.

The President has been presented with a baseball pass. Now then, mockers, do your worst!

The Fernandina Hotel lot has been selected as the site for the proposed government building in that city.

The fact that Mr. Richard Mansfield declared for Roosevelt for a third term is a sign that the third term idea is rather unpopular.

Sixteen million feet of lumber was shipped from Fernandina during the month of March. It's a record they will feel proud of.

Chicago dispatches say that a change needed to fill up the hole made by \$178,000 was abstracted from the treasury not long ago.

"Missouri stands by the mule" says Georgia exchange. But if she won't want "to be shown" she will near the head of the mule.

The Republicans of the Texas Legislature have unanimously agreed in favor of that they are for Roosevelt for a third term. There are only two of them.

The earthquake was sent upon San Francisco for its sins, why didn't it strike Abe Ruef and Schmitz instead of many acres of improved real estate?

Wonder the Pennsylvania Railroad ring beat the reformers in the State with the amount of boodle being given in the building of the Capitol gave them.

King Edward says he will not play with any young lady not twenty years old. Some young bridge players must have made several grand slams when King Edward was playing for a pound a point.

It is the season for the sporting news. There is where the news lies. The reports sent out, it is difficult to see how any team in the league can win a game, except through some accident or catastrophe.

Two 800,000 boxes of oranges will be shipped from the Pinellas peninsula when the present season opens. This means that more than a million dollars have changed hands this season as a result of the orange crop.

England will soon have a new opera house, one of which she will be proud. The plans that have been being upon it would be an ornament larger than Lakeland. It is the built of artificial stone, the lower being fitted up as store rooms.

England is raising a monument to Alfred Poe that will cost \$5,000. It is to be doubted if the living Poe would want this much money. Was it the mother of Burns that recommended when the dead poet's admirers raised a monument, that he had asked for and they gave him a stone? It is to be doubted if he would have wanted a monument of stone and appreciation.

WHO IS TO BLAME?

If, as the railroad presidents and trust magnates are declaring, there is a period of business depression ahead, who is to blame for it? It must be charged to Republican management and policy, for that party has had full control of all departments of the government for the past ten years and if there is any needed legislation, or any bad laws that ought to have been repealed or amended, there has been ample time and opportunity to attend to it.

If monopolies of transportation and manufacturing have been encouraged and created, until of their own excesses they have defeated their own prosperity the Republican party is alone to blame.

If the tariff has fostered trusts, that are gorged on the profits of an exploited people, so that reaction and business depression are possible, who is to blame?

If the cost of living is inordinately high and workmen are striking for higher wages, the reason is apparent and must be charged to the Republican policy of trust protection as the chief cause.

If the goose has been killed that has laid the golden eggs, by stuffing her with prosperity that was only intended for trusts and corporations to feed on, who is to blame?

If the wheat farmer finds that the price of his product is low and protected-trust prices are high, so that his profit is little, if any, will he blame his own skill as a husbandman and a kindly nature that has produced good crops or the tariff that has fostered trusts which are protected in charging increased profits and for which the Republican party is responsible?

There is one thing certain—that any prosperity that the farmer, the business man, or the workman has enjoyed, who receives no protection or benefit from tariff or other monopoly, must work out his own salvation, for no system can be contrived that will help everyone without everyone paying his own share or even more than his fair share.

So while the heathen of Wall Street rage and the railroad magnates prophesy vain things, the much greater number of people must be satisfied with no help or protection from the Republican party who claims all the avenues of prosperity as of its own making. It behooves such not to be fostered with the croakings of the trust and corporation birds of evil omen, but to protect themselves by such political action as will abolish monopoly and install equal rights to all and special privileges to none.

Success declares him to be a pretty poor sort of a man who loses courage and fears to face the world just because he has made a mistake or a slip somewhere, because his business has failed, because his property has been swept away by some general disaster, or because of other trouble impossible for him to avert. This is the test of your manhood; how much is there left in you when everything outside is lost? If you lie down, throw up your hands, and acknowledge yourself worsted, there is not much in you. But if, with heart undaunted and face turned forward, you refuse to give up or lose faith in yourself, if you scorn to beat a retreat, you will show that the man left in you is bigger than your loss, and larger than any defeat.

Miss Christine Klotz of Fernandina has won the prize offered by The Jacksonville Metropolis. The prize is a free trip to Jamestown, Cuba or New Orleans, with hotel bill paid for one week. Miss Klotz was fortunate in securing this prize, as there was much interest taken in the contest.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Since the publication of the Harrison letter of 1905 exposing some of the corporation magnates contributions to the Roosevelt campaign fund, it is much easier to understand why the Administration has been so liberal with the balance in the United States Treasury to help out the Wall Street frenzied financiers.

The Fernandina Record, edited by J. O. LaFontaine, comes to our table in a brand new form. It is a credit to the press of the State of Florida, and the citizens of Fernandina should not fail to give Editor LaFontaine their hearty support. Success to the editor and to The Record.

T. J. L. Brown, president of the Florida State Fair, will apply to the Legislature for an appropriation for the next two years. Much good has been derived from these annual fairs and we believe that the entire State has been benefited.

"I have been so busily occupied that I have had neither time nor inclination to even think about politics, State or National," remarked Senator Forsaker a few days since. Has the Senator no fear of being assigned to the Ananias club?

Monday was the opening day for this season of the South Atlantic Baseball League. Jacksonville will represent this State in the national game this year with a strong team. We hope to see them capture the pennant this year.

Perhaps one reason the railroads object to lower passenger rates is that they will have more damage suits to pay, because they will carry and kill more people.

The Ponce de Leon celebration at St. Augustine was a grand success in every particular.
